PROFESSIONAL SUMMARY

IT Support Engineer with 5+ years of hands-on experience in enterprise service desk and end-user support across large global environments. Consistently delivers across Active Directory, remote troubleshooting, ServiceNow, and endpoint management. Complemented by a self-built AI automation project demonstrating initiative and applied technical ability beyond the helpdesk.

EXPERIENCE

IT Support Engineer | Tata Consultancy Services | BGC, Taguig July 2024 – Sep 2025

- Averaged 20-30 incidents per day across desktop, application, and OS support for a large global enterprise user base, consistently meeting SLA targets.
- Managed Active Directory tasks — password resets, account unlocks, group membership checks, maintaining full adherence to defined security and escalation policies.
- Diagnosed and resolved incidents remotely via RDP and BeyondTrust/Bomgar, reducing on-site escalations and maintaining consistent first-contact resolution rates.
- Maintained accurate ticket documentation in ServiceNow and contributed to the internal knowledge base, reducing repeat escalations on common issues.
- Performed routine VDI health checks including application installs, system restarts, and login verification on VMware/Omnissa environments.

IT Support Engineer | Atos | Pasay City Feb 2023 – July 2024

- Managed a daily queue of 15–25 remote support incidents via ServiceNow across end-user devices, network connectivity, virtual machines, and application issues.
- Assisted users with VPN and MFA setup and troubleshooting, following established procedures and escalating out-of-scope cases appropriately.
- Executed MDM tasks in AirWatch, device health checks, iOS information lookups, and BitLocker status verification, supporting a fleet of mobile endpoints.
- Supported POS system troubleshooting using runbooks, coordinating escalations and maintaining service continuity for retail operations.

AI Automation Project | Independent | Manila Jan 2025 – Present

- Built and deployed a multi-agent Python automation system using Claude API and YouTube Data API that fully automates content publishing across two channels, demonstrating applied AI and API integration skills alongside day-to-day support work.

Personal IT Projects | Independent | Manila 2021 – 2023

- Assembled and configured custom desktop PCs including component selection, hardware installation, and Windows OS setup.
- Performed OS reinstallations and software configuration on laptops, reinforcing core hardware and system fundamentals.

Technical Support Representative | Conduent | Pasay City Sep 2019 – Sep 2021

- Managed 25–35 concurrent chat sessions per day for technical and billing support across multiple device and software platforms, consistently meeting volume and quality targets.
- Applied structured troubleshooting to resolve complex Tier 1 cases and handled escalations for issues outside defined scope.
- Mentored 5+ new hires on troubleshooting procedures and quality standards, contributing to team performance initiatives.

Technical Support Representative | Convergys · Sitel | 2014–2015

Tier 1 phone and ticket support for enterprise workstations and consumer laptops. Handled escalations, depot coordination, and case documentation across both roles.

TECHNICAL SKILLS

Identity & Access: Active Directory, Microsoft 365, Azure Entra ID (basic), Okta Verify

Remote Support: Windows RDP, BeyondTrust (Bomgar), LogMeIn, ServiceNow

Endpoint & Hardware: Windows OS troubleshooting, PC assembly, OS reinstallation, MDM basics (AirWatch)

Networking: TCP/IP, ping, ipconfig, flushdns, VPN/MFA support

Virtualization: Basic VDI health checks (VMware / Omnisia)

AI & Automation: Python (AI-assisted), Claude API, YouTube Data API, multi-agent workflow design

EDUCATION

Bachelor of Science in Information Technology | Divine Word College of Vigan | 2013
